Daikin's Vision

Provide new value to the world through air and the environment

Source of Daikin's Growth

- Believing in the Diversity and Potential of People
- Environment as the Constant Focus of Management
- Enterprising Spirit for Delivering the Future

Daikin, as one of the largest air conditioning company in the world, has earned a worldwide reputation for providing high quality products and expertise to meet variable requirements from different customers. The engineered flexibility of our product allows you to integrate our product into various system and application.

As our commitment to provide an exceptional product performance, we continually perform product development and technology innovation to offer options and features that provide the right solution for your specific application, and we have been doing so for over fifty years. You will get benefit from high energy savings, quiet operation, superior indoor air quality and easy maintenance and services.

Air side Feature

Air Handling Unit

DXE-B

Capacity : 1000-300000 CMH

Features :

- Hygienic Modular Air Handling unit
- Comply to VDI6602 by (verified) TUV
- AHRI Certified
- Eurovent Certified (TB1, L1, D1, T2)

DDM-AHU

Capacity : 1000-90000 CMH

Features :

- Eurovent certified
- Available in horizontal and vertical unit

DDM-E

Capacity : 2000-66000 CMH

Features :

- Eurovent Certified (TB1, L1, D1, T2)
- AHRI Certified

DDW-D

Capacity : 1000-45000 CMH

Features :

- Compact design with double-skin panels
- Suitable for commercial market
- Eurovent Certification

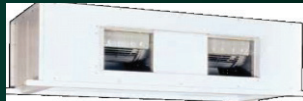

Fan Coil Unit

DDB

Capacity : 2100-15000 CMH

Features :

- Available in double skin

FWW-L

Capacity : 400-1000 CMH

Features :

- Uniform air distribution
- Quiet mode and turbo mode

FWK

Capacity : 1200 -1900 CMH

Features :

- Stylish design
- 4-way air discharge

FWE-E

Capacity : 800-2000 CMH

Features :

- Versatile design
- 2-way air discharge

FWF

Capacity : 640-740 CMH

Features :

- Stylish design
- 4-way air discharge

FUW-A

Capacity : 1500-5000 CMH

Features :

- High static pressure

FWW-C/VC/DA

Capacity : 340-3280 CMH

Features :

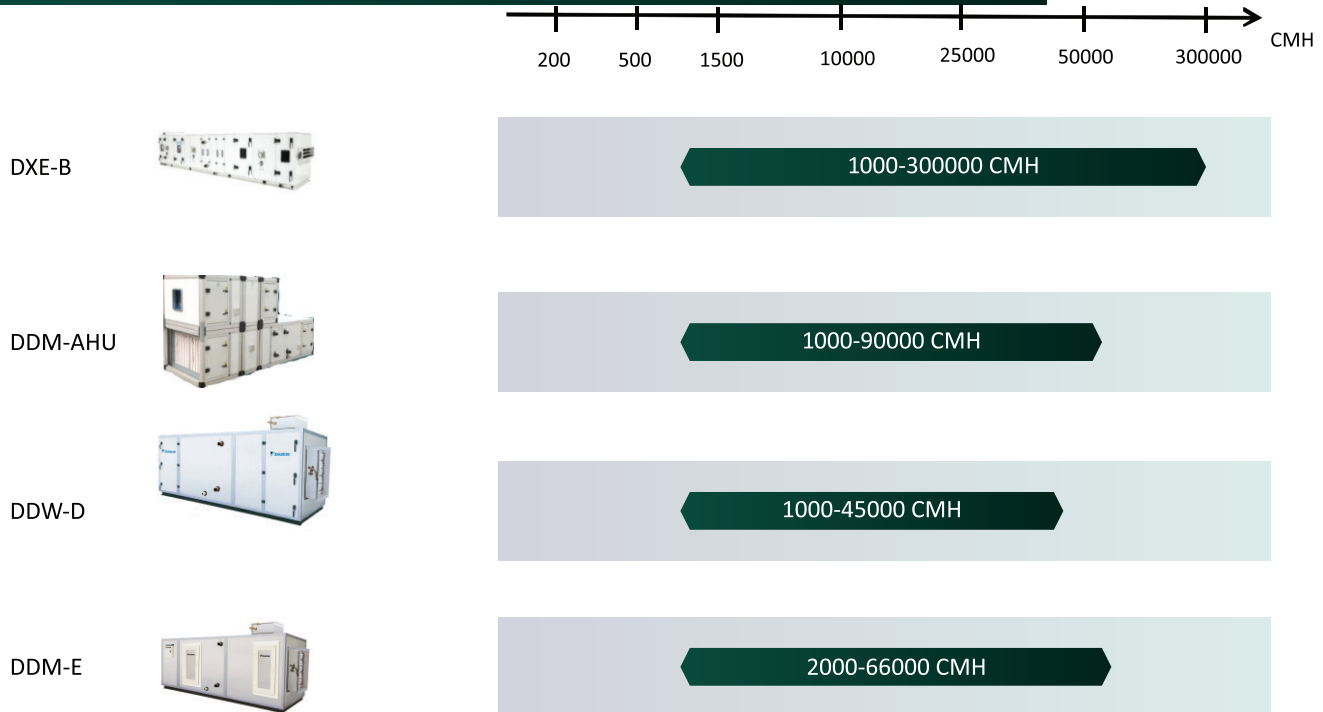

- 3 Speed fan (high/med/low)
- High delta T

Please contact our Sales Engineer for requirement beyond the capacity listed above

Water Cooled Chiller Feature

Centrifugal Compressor

WMT - Daikin Compressor

Capacity : 400 - 900 TR

Features :

- HFO Magnetic Bearing Chiller
- Two stage centrifugal compressor
- Back to back Impeller
- Truly Lubrication-Free
- High part load efficiency
- Standard with VFD
- AHRI Certified

HXE (TGS)

Capacity : 100 - 500 TR

Features :

- HFO Magnetic Bearing Chiller
- Two stage centrifugal compressor
- Truly Lubrication-Free
- High part load efficiency
- Standard with VFD
- AHRI Certified

HXE (TT and VTT)

Capacity : 100 - 1200 TR

Features :

- HFC Magnetic Bearing Chiller
- Two stage centrifugal compressor
- Truly Lubrication-Free
- High part load efficiency
- Standard with VFD
- AHRI Certified

HXEV/WME - Daikin Compressor

Capacity : 400 - 1500 TR

Features :

- HFC Magnetic Bearing Chiller
- Single stage centrifugal compressor
- Truly Lubrication-Free
- High part load efficiency
- Standard with VFD
- AHRI Certified

WTCC

Capacity : 500 - 1600 TR

Features :

- Two stage centrifugal compressor
- High part load efficiency
- Optional with VFD
- AHRI Certified

HTS/WSC

Capacity : 400 - 1800 TR

Features :

- Single stage centrifugal compressor
- High part load efficiency
- Optional with VFD
- AHRI Certified

Screw Compressor

ZUW - Y/V

Capacity : 100 - 550 TR

Features :

- Single compressor
- Falling film evaporator
- High part load efficiency
- Standard with VFD for V series
- AHRI Certified

CUWD - B/C

Capacity : 38 - 350 TR

Features :

- Single and multi compressor
- Available for low temp. (Brine Chiller)
- High part load efficiency
- Optional with VFD
- AHRI Certified

ZUW - B/C

Capacity : 40 - 410 TR

Features :

- Single and double compressor
- Available for low temp. (Brine Chiller)
- Flooded evaporator
- Optional with VFD
- AHRI Certified

EWWH - DZ/VZ

Capacity : 64 - 430 TR

Features :

- HFO Screw Compressor
- Single and double compressor
- Standard with VFD
- Flooded evaporator
- Eurovent Certified

EWWD - DZ/VZ

Capacity : 90 - 610 TR

Features :

- Single and double compressor
- Standard with VFD
- Flooded evaporator
- Eurovent Certified

Scroll Compressor

UWL

Capacity : 20 - 60 TR

Features :

- Shell and Tube Evaporator
- Electronic Expansion Valve

Air Cooled Chiller Feature

Centrifugal Compressor

UXE

Capacity : 90 - 450 TR

Features :

- Truly Lubrication-Free
- Shell and tube evaporator
- Standard with VFD
- AHRI Certified

Screw Compressor

UAA - ST3

Capacity : 105 - 450 TR

Features :

- Single and double compressor
- Shell and tube evaporator
- Multi circuit for multi compressor

UAA - SV3

Capacity : 90 - 460 TR

Features :

- Single and double compressor
- Shell and tube evaporator
- Multi circuit for multi compressor
- Standard with VFD

EWAH-TZ/VZ

Capacity : 50 - 450 TR

Features :

- HFO Screw Chiller
- Single and double screw compressor
- Shell and tube evaporator
- Standard with VFD
- Eurovent Certified

EWAD-TZ/VZ

Capacity : 48 - 540 TR

Features :

- Single and double screw compressor
- Shell and tube evaporator
- Standard with VFD
- Eurovent Certified

Scroll Compressor

UAL

Capacity : 18 - 80 TR

Features :

- Modular chiller
- Brazed plate heat exchanger
- Optional with VFD

UAM

Capacity : 20 - 100 TR

Features :

- Shell and tube evaporator
- Optional with VFD

UAL-ER

Capacity : 2 - 11 TR

Features :

- Modular Mini chiller with standard VFD
- Standard with pump

UHA

Capacity : 8 - 22 TR

Features :

- Modular Air Source Heat Pump Water Heater
